

4 ways to future-proof your meeting rooms

Ensure your meeting rooms are ready for the future of work with cutting-edge solutions that keep your organization ahead. Discover four powerful ways to upgrade your video conferencing solutions, maintain seamless collaboration with Google Meet, Microsoft Teams and Zoom, and unlock the latest AI-driven audio and video innovations for an unparalleled meeting experience.

01 Upgrade to future-ready technology

Legacy video conferencing systems lack the hardware to support Android 13 or Windows 11, restricting access to Google Meet, Microsoft Teams, Zoom certifications and Poly OS5 updates. Transition to HP Poly next-generation solutions to ensure compatibility, unlock enhanced features, and achieve future-ready performance.

- **HP Poly Studio X Series All-in-One Video Bars:** Equipped with powerful processors, these bars enable cutting-edge AI features, support Android OS updates, and deliver the latest HP Poly OS5 software enhancements for seamless collaboration.
- **HP Poly Studio V Series USB Video Bars and PC kits:** Designed for rooms of all sizes, our USB video bars offer high-quality audio and video with flexible deployment options. Use in BYOD mode with a laptop or pair with an in-room HP collaboration PC and touch controller for a streamlined, future-proof meeting experience.

02

Equip rooms with AI-enhanced audio and video

Transform your meeting rooms into immersive collaboration hubs by adopting HP Poly next-generation solutions with advanced AI technologies. DirectorAI delivers dynamic visuals that keep remote participants engaged, while NoiseBlockAI and Acoustic Fence eliminate distractions for crystal-clear audio. With support for multi-camera setups and AI-driven optics, these features create seamless, engaging meetings. Embrace AI innovations to ensure your rooms are ready for the evolving demands of hybrid work.

03

Streamline deployment for scalable collaboration

Simplify your meeting room setup with HP Poly next-generation solutions powered by HP Poly StudioNet Modular Room technology for seamless integration and scalability. Leverage standard Ethernet cabling to deploy advanced collaboration systems quickly and cost-effectively. Centralized management through HP Poly Lens ensures effortless control and updates, keeping rooms adaptable to the demands of hybrid work. Streamline deployment to build efficient, scalable spaces that grow with your business.

04

Trade-in to save and stay ahead

Maximize your budget by trading in legacy HP Poly or competitive equipment for up to 25% savings on HP Poly next-generation collaboration solutions. This comprehensive trade-in program makes upgrading affordable, enabling you to equip rooms with advanced technology that supports seamless hybrid work. Reinvest savings to create adaptable, high-performance meeting spaces ready for the future of collaboration.

From AI-enabled meeting room solutions to headsets and manageability tools, HP Poly helps work feel less like work.

Find the HP Poly solutions that fit your needs.
